Excel  
Photoshop Powerpoint  
Canva

STRENGTH

Time management,Team work skil,Learning from mistake,

PROJECTS

STUDENT ATTENDANCE MANAGEMENT SYSTEM

The project entitled "Student Attendance Management System" is designed using ASP.Net C# as the front end and ASP.Net MYSQL SERVER as the back end. This project deals with maintaining the students' attendance details day-wise. It generates the attendance of the students based on their presence in class. The system is maintained on a daily basis, where staff members are provided with separate usernames and passwords to mark the students status. Only if the student is present on that particular day, the attendance will be calculated. The system generates attendance reports based on day-wise, weekly, and consolidated attendance.

LANGUAGE

TAMIL, ENGLISH

CERTIFICATE

Fundamentals of Digital marketing  
Power point
